Preface

The yearbook is the students record of the happenings and events of the school year, containing organizations, classes, advisors, and sports. To faithfully record these for the future is the duty of the yearbook staff.

In addition, we have tried in this Keneu to portray life as it exists here in Dorchester County. Due to its locale and a variance in geographic features, the people of Dorchester make their livings in many ways--as farmers, watermen, industrial workers, salespeople, and professionals. This, then, is our home, these are our people, here is our year as we relive it for you.

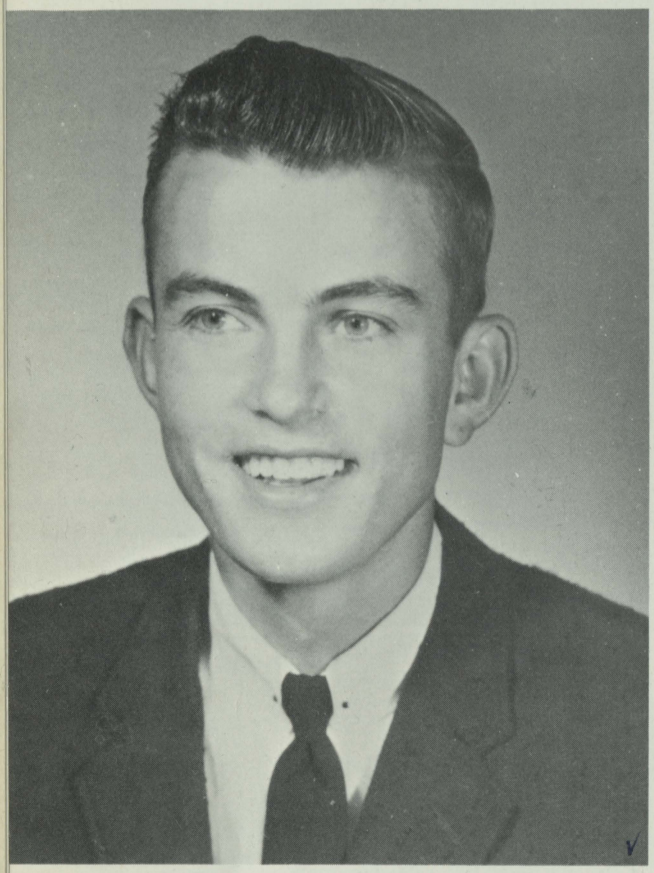
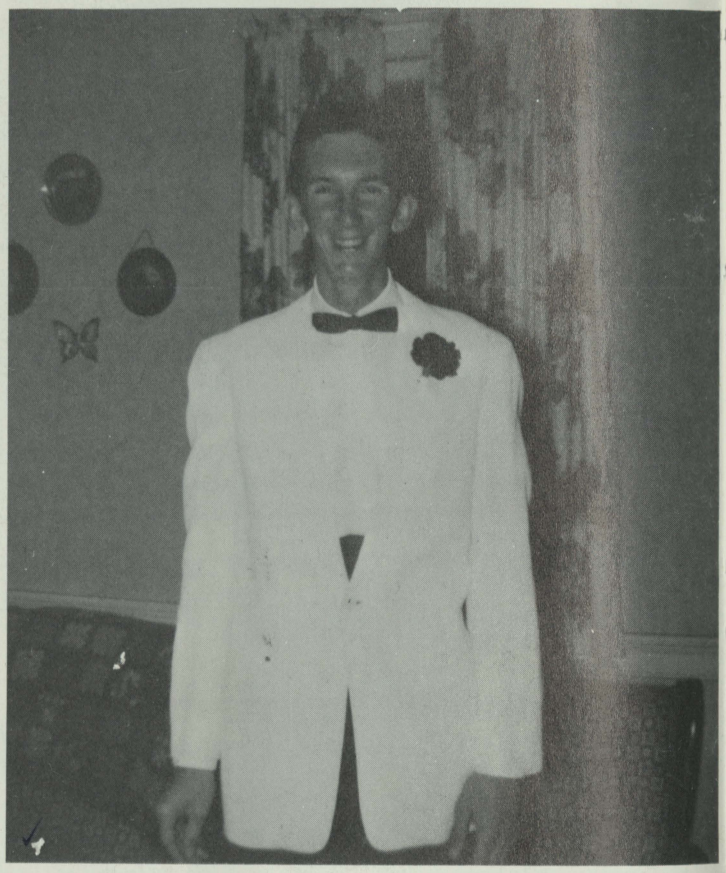
In Memoriam



Wilson Edward Dickerson



Roy Elwood Hurley

This Senior Class of 1962 sincerely expresses deepest sorrow at the loss of two fine class members. Both were killed in automobile accidents, Elwood in June, 1961 and Eddie in November, 1961. We shall always remember both for their worthwhile contributions to our lives here at North Dorchester.

THE PROFESSIONALS

Administration

Mrs. Wanda Creighton, school secretary

"A building is only as strong as it's foundation"

We have tried to help you lay your foundation. We hope yours has been a strong one. Now as you leave the public schools and enter the competitive activities of society you will be forced to build on these foundations. May your building be strong and workmanlike as you strive to achieve a full and purposeful life.

S. G. Tyler,
Principal

Congratulation Seniors, may the successes you have experienced here at North Dorchester spur you on to greater achievements just as they have shown us how to better serve those who take your place.

Ray Moore,
Vice Principal

Best wishes to the
class of '62!

You are about to reap the rewards of your achievements at North Dorchester. If your record is commendable, you will soon find your place in society. If you have lost valuable time, don't waste more on regret. Remember it is never too late to learn.

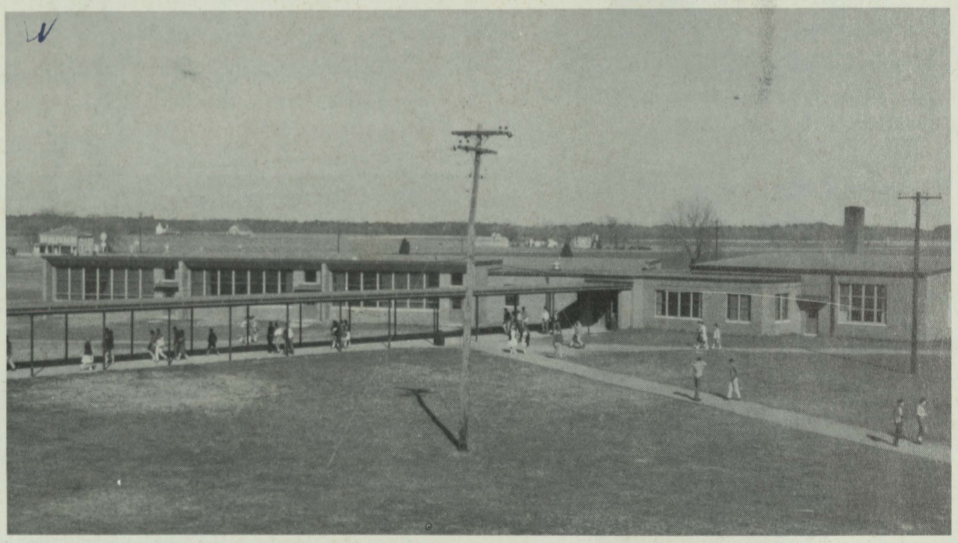
Keneu

North Dorchester High School
Hurlock, Maryland

Dear Reader,

The production of a yearbook is a great task requiring much more work than I realized when I accepted the job of Editor-in-Chief. It requires co-operation from a capable staff as well as a great deal of personal initiative. An advisor who is helpful and at the same time will spur us on when "the going gets tough" is a necessity. One also needs the co-operation of the publisher, the faculty, administration, and student body.

I have certainly had all these things. This year's Keneu staff has been efficient and capable. To borrow a cliche, "They worked like dogs."



Mrs. Bradley, our advisor, has been a tireless worker, who served us faithfully by staying nights after school, pushing us when we were falling behind, and remaining cheerful throughout the entire ordeal. No one could have asked or received more.

We owe a vote of thanks to our publisher, American Yearbook Company, and its representative, Mr. Bob Jobson. During the year they corrected our mistakes in copy, offered suggestions, and generally helped in any way they could.

The administration and faculty have been exceedingly co-operative in their attitude toward us. In allowing us to use school time for the preparation of this book, they showed confidence in our abilities to make up work missed during the classes that were used for yearbook work.

To sum it all up, had it not been for all of these people who are generally overlooked, this yearbook might not have been published.

James Richardson

Sincerely,
James Richardson, Editor-in-Chief
